February 2021

Dear Patient

We wanted to make you aware about a potential move from our current home of Cosham Health Centre to new premises on the Highclere site by Treetops in Cosham, PO6 3EP. Planning permission hasn't gone in to build this new practice yet so a move wouldn't be for some time but we wanted you to hear about this proposal from us.

Cosham Health Centre is an older building but the new premises would be more modern with good on-site parking facilities and improved access. The new location is a short distance from Cosham Health Centre and is well served by public transport.

If planning was granted for a new practice to be built then we would stay in Cosham Health Centre until the new premises were ready so there would be no disruption to the care we provide to you. The team here would relocate to the new premises so you'd continue to see the same faces you're familiar with.

We'll keep you updated with developments.

Kind regards,

North Harbour Medical Group
